

SMALL BOY STRUCK BY THROWN BRICK

Painfully but Fortunately Not Seriously Injured.

RENT THE STONE CRUSHER

The Southern Bell Telephone Company Have Some 'Phones Burned Out by Crossed Wires—Charged With Theft—Manchester News.

Manchester Bureau, Richmond, Times, No. 102 Hull Street.

Returning from the circus with his young companion, Holt Boyd, Vivian Brooks, a boy of about fourteen years, was last night struck on the head and in the back with rocks thrown from a dark corner by a crowd of negroes, and painfully though happily not seriously injured. Young Lloyd escaped without a scratch, though rocks whistled unpleasantly near his head. Officer Wright was told of the occurrence and soon had "Duck" Mosty, a small negro, stored away in a cell at the station house. As the officer attempted to make the arrest in a crowd of negroes, he had his watch open for officers. Spying one other coming to the scene, the officer asked him to come and say something about it. Instead the pennyman ran. Not wishing to shoot him, Officer Wright just shortened his hold on the club and it whistled through the air striking the fleeing negro in the back. A grunt was heard, but he did not stop running.

PROVISIONS FOR RENTING.

At a called meeting of the Street Committee yesterday afternoon it was decided to offer a stone crusher owned by the city for rent at \$45 per month, with the proviso that it not be rented for more than three months at a time, and be kept in good repair. The William C. Briggs Company has offered the committee \$30 per month for the machine, and will keep it in repair for the time they have it, the loss of doing this, however, to be deducted from the rent of the machine.

PHONES BURNED OUT.

Results from the crossing of a feed wire with a live wire on the Richmond end of Mayo's bridge yesterday are even more serious in the city than was at first thought. More than half the 'phones of the Southern Bell Telephone Company yesterday afternoon and last night were out of service. A feed wire running across Mayo's bridge either broke or became entangled in some way with the current wire across the bridge and at once there was consternation among holders of the 'phones. The wires used at the Standard Oil Company proceeded to catch fire and but for the little fire extinguishers in the office there might have been a serious conflagration. The one in the Southern Laundry also caught fire and had to be quenched.

LODGED IN CELL.

Charged with stealing brass to the value of \$13.50 from the Southern road, Eugene Crawley, a young white man apparently about sixteen years old, was lodged in the station house last night and a search made for those who were associated with him at the time. Warrants are in the hands of the officers for the arrest of Robert Fox and Rubie Smith, two youngsters about the same age of the one caught. Fox is said to have gone to Lynchburg early in the afternoon.

REGISTERING SLOW.

Registration in Manchester has been progressing very slowly, so think the party leaders, and there will be another effort made to get the voters out in large numbers before the books are closed. The list of those registered in the different wards up to the present is: First Ward, white, 61; colored, 6. Second Ward, white, 24; colored, 4. Third Ward, white, 173; colored, 8. Fourth Ward, white, 173; colored, 8. One of the negroes registered in the Fourth got in under the soldier clause, having served in the Spanish-American war.

WORKING ON DAM.

A large force of hands is engaged in making some repairs on the dam across the James, which turns the water into the canal, feeding the mills and shops on this side. All the old planks will be removed and cement placed in their stead. Work is also being done on the dam above this one, the present dam across the river, and turning a part of the channel into the canal on the Richmond side, giving a supply of water to the mills of the Richmond side. With the river at a small depth it is at present, for two more weeks, all the work will have been completed.

The Horse Show is becoming more and more the thing. fers at the building, where he found the work progressing most satisfactorily. The amphitheatre is now practically complete, and the carpenters are turning their attention to the erection of the extensive shed and stables in the rear of the building.

The sale of tickets on yesterday was not so heavy, but showed the steady demand for the best seats in the amphitheatre.

It was stated yesterday morning that Mr. A. J. Cassatt, of the Pennsylvania Railroad, would enter his famous hackneys in the Richmond Show. Mr. Cassatt's horses are famous as prize winners in all shows in which they appear.

There was a rumor current in local railway circles yesterday to the effect that Superintendent Hix, of the First Division, would be transferred to Raleigh.

It is now believed that the Southern's new fast train between New York, Atlanta and New Orleans will be inaugurated October 15th. It has not been officially announced that this date will see the train in operation, but as soon as a few minor details of schedules are worked out, it is believed this announcement will be made.

The train is to be one of the most elegantly equipped operated in Southern territory. It is practically certain that a train from Richmond will be put on to connect with this train at Danville.

INTERESTING EVENT

Mr. DeWitt Jennings and Miss Evelyn Brown to Be Married.

Mr. DeWitt C. Jennings, one of the principals of the George Fawcett Stock Company, which is now playing at the Bijou in "The Liars," in which Mr. Jennings has made one of the hits of his life, will marry Miss Evelyn Brown, an actress who was a prominent member of the Giffen Stock Company with Mr. Jennings during the summer engagements of the company here. Miss Brown is now in this city, stopping in Governor Street. She will be seen again with the Giffen Stock Company this winter.

The usual stage romance lies behind it. Mr. Jennings and Miss Brown met for the first time when the Giffen Stock Company began its season at the Academy of Music here last summer. Constant association developed the mutual admiration and finally when the two, Miss Brown with her mother, took apartments both in the same house they were thrown even more together. Then they separated for several months.

Meanwhile Mr. Jennings had signed with the Fawcett Company and Miss Brown had renewed her engagement with the Giffen Company. Miss Brown came to Richmond several weeks ago to wait on the Giffen Company and when Mr. Jennings came she was one of the first to greet him. Now comes the engagement. Both will be seen in this city many times during the coming winter and will be together a great deal.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by heart disease, pneumonia, apoplexy, failure of the heart, or are the result of kidney disease. If kidney trouble is allowed to advance the kidney is poisoned, blood will attack the vital organs of the kidneys themselves break down and waste away by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickly by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail, Address Dr. Kilmer & Co. Binghamton, N. Y. A number of men were blasting in a tunnel at the time, and without the slightest warning the walls on either side caved in with a terrible noise. It is supposed that the accident was caused indirectly by the blasting. At this writing the names of killed and injured had not been ascertained here.

LA SOUFRIERE AGAIN

Eruption Presented a Dazzling Phenomenon from Kingston.

(By Associated Press.)

KNIGHTSTOWN, ISLAND OF ST. VINCENT, Sept. 24.—The eruption of La Soufriere volcano yesterday was a dazzling phenomenon. At 6 o'clock at night the crater emitted a huge efflorescing cloud, which spread while rapidly ascending, changed from black to gray and then to silver color, coruscating quickly and suddenly until it appeared as if a great cauliflower had bloomed on its crest. This cast a glare over the city, but proved harmless. The eruption lasted about fifteen minutes.

The cable company reports further and unprecedented difficulties in the attempts made to repair the cables between St. Lucia and St. Vincent and St. Lucia and Grenada. The end of the St. Lucia-St. Vincent section, is buoyed in eighteen hundred fathoms of water.

SOLDIERS CAMPED IN STRIKE REGION

No Big, General Rioting, but General Disturbance.

NON-UNION MEN ARE BEATEN

Soldier's Ordered to Susquehanna County Which Hitherto Has Remained Quiet—Situation Practically Same at Wilkesbarre.

(By Associated Press.)

PHILADELPHIA, PA., September 24.—Of the ten anthracite coal producing districts of the State, troops are now camped in five. The section of the strike region in the vicinity of Forest City, which has been comparatively quiet ever since the strike began, was greatly wrought up to-day by the use of strikers interfering with and beating men who had returned to work, and as a result Sheriff Maxey, of Susquehanna county, to-night asked Governor Stone for troops to assist him and other civil authorities to preserve the peace.

While there has been no big general rioting, the disturbances have been of such a nature as to cause the authorities serious apprehension. Reports are coming in from every section of non-union men being either shot or mobbed, and houses have been dynamited and attempts have been made to derail coal trains or hold them up. Coal is being shipped from many parts of the coal fields to market, but compared with the normal output the quantity is insignificant. The output for this week was considerably less than the normal output for one day, which is about 100,000 tons.

REGIMENT AT WILKESBARRE

Sheriff Reported to Governor That He Could Not Handle Mobs.

(By Associated Press.)

WILKESBARRE, PA., Sept. 24.—In compliance with the request of Sheriff Jacobs and numerous citizens of Luzerne county, Governor Stone issued an order at noon instructing the Ninth Regiment to mobilize at Wilkesbarre.

The regiment has its headquarters here, and three hours later Colonel Dougherty, the commanding officer, had the regiment, with the exception of the Hazleton company, ready for the field. The regiment consists of twelve companies and numbers about 720 men.

Colonel Dougherty says he does not apprehend any serious trouble. President Mitchell refused to make any comment on Sheriff Jacobs' action in asking the Governor for troops. He said the presence of the militia would not interfere with any of his plans, which were to push the strike to a successful issue. Some of the Mitchell men, however, the sheriff acted rather hastily in the bringing of the troops here for the purpose of dealing with the mine owners to operate their collieries, but they will be disappointed, as the strikers are determined as ever.

Sheriff Jacobs, in a statement issued to the public, explains at length why he asked the Governor for troops. He says the outbreaks were beyond control, numerous, and with the limited number of men at his command he could not cope with the unlawful assemblages gathered in many places throughout the county.

A Central Railway of New Jersey coal train, which was moving out of a mine siding at Warrior Run last night, was derailed by an open switch which had been tampered with by unknown parties. The crew escaped by jumping and the cars were piled up in a big wreck. The coal which the train was carrying was intended for the New York market.

A big crowd of strikers attempted to prevent the non-union men employed at the Exeter colliery of the Lehigh Valley Coal Company at Sturtevantville, from going to work this morning. A number of deputy sheriffs, in charge of Thomas Burke, tried to protect the workmen. A fight followed, in which several shots were fired. David Richards, a fire boss, was shot in the leg and David Harris and John Stroth were beaten on the head with clubs. Burke was also knocked down with a stone and rendered unconscious. Coal and iron police finally dispersed the mob. Masters of Exeter and West Pittston issued warrants this afternoon for twenty-five of the ring-leaders.

A crowd of 500 men and boys refused to allow non-union workmen to cross the Susquehanna River bridge at Nanticoke this morning. A deputy sheriff, who was on duty, was dispersed. The riot act of the military has already had a good effect. Everything is quiet at the mines to-night. General Gobin is expected here to-morrow, and will probably make his headquarters here.

SOLDIERS BUSY AT SCRANTON

Demonstrations by the Strikers Keep Them on the Go.

(By Associated Press.)

SCRANTON, PA., September 24.—Three calls were made on the Thirteenth Regiment to-day to quell disturbances. The first was from Johnstown, where a riot broke out. The second was from Scranton, where a coal train with obstructions on the track, and threats against the train hands, Major B. Rushfield, with two companies, hurried thither on a special train and dispersed the crowd. This evening the same place was called to disperse a crowd that was chasing non-union men from work. Two strikers, one with an axe, and the other with a knife, were arrested by the soldiers and taken to camp.

About 5:30 P. M. non-union men were returning from work at the Temple Company's Sterrick Creek colliery, in Jessup, and were chased by a crowd of strikers, mostly foreigners. The fugitives fired several shots, and this brought the whole neighborhood to a standstill. Immediately a general hunt was organized by the strikers and their sympathizers, with the non-union men from the collieries as their quarry. Half a dozen non-union men were chased by as many different crowds in a general hunt. The strikers were exchanged, and a couple of companies from the camp at Olipant arrived and the huntmen proceeded to seek cover.

Colonel Waters had patrols out in all directions to-night to arrest disturbers and keep order in the town. The valley is sixteen miles long, and all of its towns, except the Ridge, are along the line of one or the other of the roads.

Negro Labor Imported.

(By Associated Press.)

LEBANON, PA., September 24.—Everything is quiet here to-night. The troops are still on duty and the colored iron workers imported from the South are being to operate the mills of the American Iron and Steel Company without molestation from outsiders, though there is much regret expressed as it becomes apparent to the public that the statement made yesterday that the negroes would be tan the country should not be carried out. It is believed by the people that the promise to send them

away was done with the intention of getting time until the arrival of the soldiers. At police headquarters to-night it was given out as the opinion of the department that as long as the colored iron workers were kept in the employ of the company the troops would be needed.

Shots Fired at Susquehanna.

(By Associated Press.)

SUSQUEHANNA, PA., September 24.—An urgent request for troops was made to-night to Governor Stone by Sheriff Maxey, of Susquehanna county. This morning No. 2 colliery, of the Hillside Coal and Iron Company, at Forest City, resumed operations, and as the men were returning from work this evening they were set upon by a mob of about 200 or 300 men, women and boys. Followed to their homes, and pelted with sticks and stones. Shots were fired on each side, but none of them took effect. After the men were driven to their homes the mob surged through the streets, and by order of the Burgess all of the saloons in the borough were closed. So serious is the situation that Sheriff Maxey called the leading men of the borough together, and after conferring with them asked the Governor for troops.

Martial Law, Says Sheriff.

(By Associated Press.)

TAMAQUA, PA., Sept. 24.—Deputy Sheriff Smith, speaking for Sheriff Boddall, in a statement to an Associated Press reporter to-day, said: "You can infer for yourself how serious the sheriff considers the situation when I tell you that he has asked Governor Stone to place the county under martial law. The sheriff thinks the law has come to take drastic action before the situation becomes so serious that it will be uncontrollable."

It is said here that the appeal of Sheriff Boddall to the Governor for troops will set a precedent which will be followed by other sheriffs in the strike districts.

CONVENTION IN CONFUSION

Connecticut Democrats Likely to Have a Lively Time To-Day.

(By Associated Press.)

NEW HAVEN, CONN., Sept. 24.—The delegates to the Democratic State Convention assembled to-night to transact business preliminary to the convention proper to-morrow. The proceedings of the night wound up with a fracas, which developed in the New London county caucus during a debate involving the endorsement of one or the other of the two candidates for Governor. Hot words were followed by scuffles, and then came fistuffs. No one was seriously injured, but the caucus went to pieces in perfect pandemonium.

In addition to the heat of the gubernatorial canvass there was thrust in the situation to-night another disturbing element. A large party of "Kansas City platform Democrats" had announced its purpose to demand of the convention the endorsement of the Kansas City platform, practically insuring a repetition of the recent Massachusetts contest. A result the situation at midnight was confusing.

NEGOTIATIONS OFF

Plans for a Beef Combine Broken Up by Roosevelt's Speeches.

(By Associated Press.)

CHICAGO, Sept. 24.—The combination of the great packing houses of the country which has been under consideration and process of actual formation for the last six months, has been abandoned, at least for the present, says The Tribune. The determination not to complete the combination is due in a large degree to the attitude of the administration. Men at his command he could not cope with the unlawful assemblages gathered in many places throughout the county.

It was learned last night that a final meeting of representatives of the firms known as the Big Four packing houses was held, at which it was resolved to end all negotiations.

CINCINNATI IN DARKNESS

Electric Light Company Unable to Supply Power and Lights.

(By Associated Press.)

CINCINNATI, O., Sept. 24.—The Edison Electric Light Company lost its current last night and left the city in darkness and many places without power. The telegraph companies, which receive their electric power from the company, suddenly found all wires useless. By attachment to other plants and by using additional currents from other cities the wires were restored. To-day all uses of electric power dependent upon the Edison Company are unable to do business. The newspapers are compelled to set type by hand, the power for their machines having failed. Underground wires became heated and the insulation burned off, making it necessary to replace them with new wires.

WORN OUT, DRAGGED OUT,

Are Most Women in Summer—Pe-ru-na is a Tonic of Efficiency.

JOSEPHINE MORRIS, 238 Carroll St., Brooklyn, N. Y. Writes:

"Peruna is a fine medicine to take any time of the year, but I have found it especially helpful to withstand the wear and tear of the hot weather. I have taken it now for two summers and feel that it has kept my system free from malaria and also kept me from having that worn-out, dragged-out look which so many women have."

"I therefore have no hesitancy in saying that I think it is the finest tonic in the world."—Josephine Morris.

Peruna is frequently used as a mitigation of the effects of hot weather. What a bath is to the skin, Peruna is to the mucous membranes. Bathing keeps the skin healthy. Peruna makes the mucous membranes clean and healthy. With the skin and mucous membranes in good working order, hot weather can be withstood with very little suffering.

Frequent bathing with an occasional use of Peruna is sure to mitigate the horrors of hot weather. Many ladies have discovered that the depression of hot weather and the rigors that follow have been in the habit of attributing to malaria, quickly disappear when they use Peruna. This is why Peruna is so popular with them. Peruna provides clean mucous membranes, and the clean mucous membranes do the rest.

He read a letter written by Joseph Risal, the greatest genius and most revered patriot of the Philippines, in which he pleaded with his people to submit to American sovereignty as the only way in which to gain their freedom.
